Subject: Jen Smith Twitter screenshots

Hello

I have been sent the twitter screen shots that Jen has put on, and I believe this takes us to a place where her working with us is no long tenable.

What is very sad about this, is that when Jen has been part of working groups, has talked to us in social care – she has met with Ali several times, she has been open, appeared to understand what we are doing, and could see our focus on children.

After last night's outburst I think we need to review our working with her in the formal role as the parent carer rep as from how she presented, she is not able to hear what we have been doing, even though she has been part of it.

Please let me know next steps and how I can support any working with Jen

thanks

I feel that was the last time I will be going to People Scrutiny Commission. You know that moment when you've heard so much crap you lose it. I can't even remember what I shouted but I

ended with 'you should all be ashamed of yourselves'. What social care provision? There's none

Well that's just it isn't it. Anything not to support the disabled kids they've let down. I don't know how they sleep at night. I couldn't live with being part of that.

I can remember Andy Richardson, a former care home manager, who was involved in the Campaign to Save Daycare in Bristol saying in about 2004, "The concept of care has disappeared from social care". We're 18 years on from that.

You'll be pleased to know that there are now plans involving doing stuff by people for someone maybe some people which will take a very long time to get there. In the meantime there are teams doing things with some people with outcomes

You were right to say what you did as you left. How do they sleep at night. They certainly don't have to cradle our sobbing children at night that's for sure. Nor does the women who haunts my sons dreams. They don't care what effect

their negligence has on our children's future.

Chopsy Bristol @ChopsyBristol · 3h ...

Exactly. And how many more years will it go drivelling on for?

I give up on Bristol because Bristol has given up on us. I've had enough of listening to provision that doesn't translate into reality. It's institutional gas lighting. Disabled families failed under a promise of what doesn't

happen

These people don't use the services do don't know they do not work. There should be laws that guarantee 50% of council committees are made up of the community who use that service

I agree. But they also know full well they deliberately stop disabled children from having S.17 assessments. Here we go [@BristolCouncil](#) Where's your universal service? We're at home doing nothing all day with no one again. Much like 2018 - 2022.

‘Not only is the system broken, the failure to meet the needs of families like this, and the subsequent impact that has on the children and their carers, is criminal.’ Another statement in public forum for this evening’s People Scrutiny Commission. It’s time for the 10ft signs

S3: Mrs P

There is an adorable 6 year old boy with Down syndrome and other additional needs living in Bristol. He should be in year 2 at school but has no school place. The LA have advised that they also have no alternative learning provision that can meet his needs whilst he is out of school. A breakdown between the LA and his old school has meant that a bespoke package agreed 6 months ago at an emergency Annual Review has still not been provided. A charity stepped in two months ago to offer the services of a mentor for the vulnerable boy whilst he was out of school and receiving no other services, let alone education, but the LA failed to confirm payment. As such, the mentoring never started. LD CAMHS, who were supporting the boy and his family, have been cut back to a team of just two (from 7 or 8) and are about to discharge him from their services. Social care provision was agreed several months ago for just a few hours a week outside school hours only, and yet there is no actual

social care happening as none can be found that fit the requirements laid down by the Social Care team.

The entire send system is broken.

People Scrutiny Commission Public Forum 7 March 2022

This little boy, who now suffers from chronic anxiety, continues to be completely failed by Bristol SEND. Not only is the system broken, the failure to meet the needs of families like this, and the subsequent impact that has on the children and their carers, is criminal.
